This coverage map is based upon the White Rose schemes of learning (updated- version 3). They are majoritively based upon the Year 1 scheme of learning but incorporate some of the coverage within Year 2. This is due to the fact that our pupils have previous experience of these topics. Some Geometry topics have slightly changed order in order to incorporate a higher coverage of Money and Time which are areas that we prioritise.

This coverage map is based upon the White Rose schemes of learning (updated- version 3). They majoritively include the coverage from the Year 2 and 3 schemes of learning. However, certain coverage has been included for those pupils working at Year 4 e.g. decimals and area. There are some pupils within this pathway who are working at Year 1 in selected areas. This coverage map has a higher focus on calculations which is where our pupils are lagging. However, pupils working at Year 1 will have a higher focus on addition and subtraction rather than multiplication and division. Some Geometry topics have slightly changed order in order to incorporate a higher coverage of Money and Time which are areas that we prioritise.
